## Out Where the Paving Ends

Ever noticed the cars you meet in the out-of-the-way  
places, approached by narrow, twisting trails, or  
rough country roads? They are Fords—nearly  
every one.

To the Ford car no going is too hard. Every road is  
open to it—by-ways and highways alike. It is so  
light it rarely ever "mires in", so powerful that it  
can pull through where heavy cars must balk.

Take your Ford this summer and explore. There  
are delights awaiting you away from the beaten  
path that few know. Leave the crowds and the  
highways behind you. It costs but little—and it  
will be a vacation you will never forget.

They will continue their trip from Boulder in a few days for Yellow Stone Park.

Mr. and Mrs. Eugene Keller and Messrs. Leo Zinsmeyer and Joe Lammon motored to Dilley Sunday afternoon to see a ball game between Dilley and Alamo-Peck Indians at Dilley. The first game Dilley won by a score of 3 to 1, and the second the Indians won by a score of 5 to 0. Since Dilley defeated the Indians once and LaCoste defeated Dilley twice in a two game series, LaCoste ought to be able to put it over the Indians and thereby becoming the semi-professional champions of this territory.

## GREETINGS TO LOVED ONES, FRIENDS AND OTHERS.

In the afternoon of July 13th wife and I left Hondo, Texas, and motored down to San Antonio, and spent a few hours with our son, W. C. Horgan, wife and daughter, Irene. At 11 p. m. we took the Katy for Hamlin, Texas, by way of Waco, and thence N. W. we arrived at Stanford at 6 p. m. on the 14th. Stanford is 20 miles east of Hamlin, in Jones County, Texas, which is seven counties directly west of Dallas. At Stanford, we were met by our youngest son, Rev. J. Caughey Horgan, wife, baby girl and boy, and greeted by a local summer cloud and storm, which blew off our hat, pulled over hair, and peppered our faces with the burning sand, stinging as though it penetrated the skin. However, we got in the auto, and stemmed the storm for Hamlin, 20 miles west, over a high table, rich dark chocolate, prairie in extensive beautiful farms with fairly good crops—no corn. The storm lasted about 40 minutes and 20 minutes later, we entered Hamlin on the North, and drove down main, the only street—with goods substantial business building on both sides, for about a quarter of a mile, and thence S. W. 1-2 mile to the Nazarene academy, near which, our preacher boy and family reside in a humble, but happy little house. The country round about, is an elevated dark chocolate colored prairie land, extending 6 to 8 miles on the North, West and South, and some 25 miles eastward, outside of which, it is more hilly and rough.

The Nazarenes had announced a 10 days camp meeting, but later, moved it to a Tabernacle in Hamlin. Dr. Matthews, about 48 years old, did the preaching. He gave a short sketch of his life, which we abbreviate as follows. He was born, christened and partly reared by Presbyterian parents and came to manhood in the home of a Baptist uncle, professed salvation and joined the Baptist church while young, he was highly educated, and felt a call to preach; and came to be pastor of a Baptist congregation, whose church cost \$180,000.00 and had about 2,000 members, several of them millionaires, and of course paid him a large salary, and furnished a paid choir. He wore a silk hat, carried a gold-head cane, and often preached to thousands, while a bouquet of flowers which cost \$25.00 to \$40.00 stood on the pulpit. He usually took his vacation in a tour to Europe and other foreign lands, with certified checks to bear his expenses, and letters of recommendation from his rich members and friends to the elite, potentates and Royalties of the countries whither he went.

In this condition, he backslid, became disgusted with the whole regime; and resigned his pastorate, and went in search for light and life. Months and possibly years had passed, when he was restored and brightly converted, and believing he was really sanctified, he hunted up a good Baptist Deacon who enjoyed the experience of Sanctification for years and told him he was sanctified and they had a good time rejoicing and praising God together. But he soon discovered that he had not yet obtained that perfect love for which his soul longed. Whereupon, he renewed the suit, and ten days from the time he was converted he was baptized with the Spirit, cleansing from all sin, and filling his soul with perfect love. That was 12 years ago. At once, he said, he began to preach the Gospel of a free salvation where ever he could get a congregation, large or small, money or no money. Just when and where he joined the Nazarene church, he did not say. The preaching by Dr. Matthews, throughout the meeting was simple and plain, intelligent and instructive, profound, and often rose to strains of the most sublime, Heaven-born Eloquence. The sermons ran from one to one and a half hours, while a congregation of one to 300 people, with uplifted faces, appeared not to grow weary. The prayers, both private and public of about 25 to 30 men and women, were earnest, fervent supplications and intercessions, of the most persistent agonizing type. Many, from time to time, at their own instigation fasted 24 to 36 hours, and prayed late at night—some all night long. Glad and triumphant shouting was common, with now and then a touch of the old time holy dance; evidently, after the same order and in wrought by the same God inspired ecstasy as that of King David when he danced before the ark of the Lord. 2 Sam 6th ch. That was not without a despoiler, fun making and ridiculing. Perhaps these had theirs too. Styles moods, manners and methods change. But fallen unsaved man, remains the same blind, vile, un-Godly wretch—beloved,—oft with traits unlovable. Conviction among the unsaved and the back-slidden appeared genuine and ordinarily deep, but seemed to lack in old time pungent contrition.

## CATARRH

Catarrh is a Local disease greatly influenced by Constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment which gives Quick Relief by local application, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces and assists in ridding your System of Catarrh. Sold by druggists for over 40 Years. F. J. Cheney & Co., Toledo, O.

Therefore, they often appeared comparatively cold, languid and stubborn. However, about 20 to 30 prayed through at the altar and elsewhere, on their knees, some were converted, some restored, and others sanctified.

An altar service of 8 to 10 persons were anointed and prayed with for the healing of the body, and one of them, publicly cried out during the service, that she was instantly healed.

Five young men and six young women formed a class, publicly declaring a conscious call to special work; most of them to preach, some to the foreign fields and others as Deaconness and Gospel singers. Their names were enrolled and turned over to Dr. Matthews, that he might send them literature from time to time, to help them in preparation for future work. The last night of the meeting, two Christian young men, lay for about half an hour, prostrate in the dust, in a trance, a semi-conscious state. Having the appearance of one dead, they were rolled over to Dr. Matthews, that he might occasionally roll over in the dirt, throw their hands in an indolent manner, some times rubbing their faces over with their dirty hand, while sighing in deep and suppliant groans. They were a sight to behold! Both, were said to be of splendid Christian character, and of good families, we were told, that they came into that condition, as a result of a great heart burden, and traveling prayer for certain unsaved or backslidden loved ones.

The privilege of joining the church was not extended during, nor at the close of the meeting.

Want to say in closing, that we saw no crops worth mention, until we came within 50 miles of Hamlin, and then, as we came to Dallas, we found nothing in way of crops till we passed Fort Worth, where they were better on down here, 12 miles east of Dallas.

Best wishes, love and friendship for everybody.

of Hondo, Texas.

## THE PLAYGROUND OF TEXAS.

Are we West Texans neglecting our opportunities? Is there any special reason why hundreds of people from all parts of Texas, Louisiana, and Mississippi should go to California and Colorado every summer when West Texas has just as ideal picturesque scenery, just as ideal climatic conditions? A few people have already sensed the value of what this section has to offer summer tourists, and two large Church Encampments have been located in the Davis Mountains, one at Paisano and one at Skillman Grove.

To these encampments thousands of people from every section of Texas come for purpose of recreation and rest. They return to their tasks better prepared physically, morally, and spiritually to render a higher quality of service. Our State is yet young; her resources are almost unlimited; and her people have been engaged in the mad pursuit of wealth. But the day is soon coming when the Davis Mountains will be the Playground of Texas. The lure of the picturesque mountains, the invigorating climate, the cloudless skies, and the call of the wild will attract people from all over Texas in ever increasing numbers to this section when once the advantages of the climate and scenery are presented to them in proper form.

If West Texas is ever to come into her own, the people of West Texas must put their hands to the plow and drive straight to a definite goal—the value and beauty of our climate and our scenery. The responsibility for the moral, spiritual, and material welfare of this section rests upon the people who have elected this part of the State in which to live and die, as the best part of the State in which to rear their own children. We must believe in our section, and we must believe in ourselves; we must build up that life of which we are a part, and we must induce others to come out and enjoy some of those things we value so highly.

During the 1925 Summer Session more than 300 students from 20 counties of Texas enrolled at Sul Ross State Teachers College—a college established and maintained for the boys and girls of this section. These young men and young women will return to their homes in August and tell others about the wonderful scenery and climate of this section, about the hospitality of its people and their freedom from conventionalities, about the "Spirit of the West." A great College in this section will advertise the Davis Mountains to the rest of Texas. In addition, it will give many boys and girls of this section an opportunity to get a college education; and it will raise the cultural level of every community in this section. The people of West Texas should, therefore, take a pride in their own college, and should patronize it in ever-increasing numbers. We can not say to the people of this section that this section is the best place in Texas to attend college, and then turn around and send our own boys and girls elsewhere to college. We should at least give our own college a trial first. Sul Ross State Teachers College is a West Texas enterprise, and as such it should receive the hearty and active support of every community in West Texas.

## BOILER BLOWS UP.

The boiler at the Blackburn well blew up about eight o'clock Sunday morning and was blown about seventy yards from its foundation, tumbling over and over in its flight. Fortunately nothing was in its track save an empty truck which was struck a glancing blow and considerably damaged. The truck belonged to Charlie Gilliam of this place. Robert Hartung, the fireman, was standing by the side of the boiler when it blew up but miraculously escaped all injury, save a slightly scalded foot. Manager Brown got busy at once to secure a new boiler and we understand by Thursday it had been set and fired up ready for work.

Eastban & Tarver are reported to have a good well on the Wilson tract at a depth of 966 feet. The well was drilled in and bailed Wednesday. It is reported that it had 41 feet of sand from 925 to 966, and that the sand was heavily saturated and indicated a good pumper. The well had not been sufficiently tested to indicate the production but every report indicated that when on the pump it would be a good commercial well. The completion of the well will be followed by the drilling of others.

Unusual activity in leasing is noted this week, and more oil scouts are looking over the field the last few days than usual. What this presages the uninitiated of course are

left to surmise as it is next to impossible to secure any reliable information from those engaged in the game.

A geologist spoke to a small crowd of oil enthusiasts at the Chamber of Commerce Thursday night, explaining the geologic formations of this section and giving his reasons for believing that oil in paying quantities is to be found in Medina County. His best reason is the fact that he has secured leases on several tracts of land north of town, and the near future may see a test well drilled in a heretofore untried area.
